50 POPULAR AEROSOL COLORS
& 3 CLEARS

CUSTOM FILL™ AEROSOL
BLANK (FILLON MACHINE)

UNIVERSAL COLOR COAT
BLANK (OMNI-FILL & OTHERS)

STEP 1 PREP

VINYL & PLASTIC: Clean first with **SEM Soap** and a gray scuff pad. Rinse with water and allow to dry.

For vinyl, clean thoroughly with **Vinyl Prep** or **XXX Universal Surface Cleaner**, using a clean, damp, lint-free towel and wiping in one direction. For plastic, clean with **Plastic & Leather Prep** or **XXX Universal Surface Cleaner**.

CARPET & VELOUR: Shampoo first. Clean with **Plastic & Leather Prep**. Scrub lightly with a nylon bristle brush to separate the fibers and to remove oil, grease and contaminants. Allow to dry, then vacuum.

STEP 2 MIXING

DO NOT THIN. **Color Coat** is ready to spray.

Shake or stir well, per label instructions, to ensure color uniformity. For best results, use only when can temperature is approximately 70°F (21°C).

For additional versatility when matching low gloss OEM colors, **Color Coat Flattener** is available.

STEP 3 APPLY

AEROSOL: Hold can approximately 6 – 8" from the surface. Apply light coats allowing 5 – 10 minutes between coats.

SPRAY GUN: Using fluid tip size 1.0 – 1.3 at 20 – 25 psi with non-HVLP or 8 – 10 psi at the cap with HVLP, apply 2 – 3 light coats or until hiding, allowing 5 – 10 minutes flash time between coats. Some colors will require more coats to cover.

CARPET & VELOUR: Spray one light coat and immediately brush in all directions using a nylon bristle brush. Apply a second light coat and brush again. After surface has completely dried, brush again to loosen fibers.

SEM Soap	Part	Size
A mild abrasive cleaner for flexible substrates.	39362	16 oz. Tube

Vinyl Prep	Part	Size
A strong solvent blend for refinishing vinyl.	38343	16 oz. Aerosol
