

DESCRIPTION

Dual-Mix Quick Set 50 is a two-component, general purpose, urethane adhesive with a 50 second set time designed for repair and bonding of most plastic, steel, aluminum, glass, SMC and fiberglass parts.

FEATURES

- **Dual-Mix** Forever Warranty
- OEM recommended
- High strength and sandable
- Bonds multiple substrates
- Non-sag formula
- Fast setting

SUITABLE SUBSTRATES

- Primed or painted surfaces
- Plastic
- Bare metal
- SMC
- Fiberglass
- Glass
- Concrete
- Steel
- Aluminum
- Wood

Check local VOC regulations to ensure compliance of all products in your area.

Always wear OSHA required (PPE) Personal Protectoin Equipment as outlined on the SDS and product label to ensure your safety.

HANDLING AND APPLICATION

PREPARATION:

FOR PLASTIC:

- 1. Clean with Scuff & Clean and rinse with water.
- 2. Clean with Plastic & Leather Prep or XXX Universal Surface Cleaner.
- **3.** Sand area to be repaired with P24 P36 grit sandpaper and blow off dust.
- **4.** For application on TPO, EPDM, PP and other similar thermoplastics, use **Plastic Adhesion Promoter** or **XXX Adhesion Promoter** per instructions.

Note: Plastic Adhesion Promoter or **XXX Adehsion Promoter** must be completely flashed before application of top coat.

FOR METAL:

- 1. Clean with SEM Solve or XXX Universal Surface Cleaner.
- 2. Sand with P80 grit sandpaper and blow off dust.
- 3. Re-clean with SEM Solve or XXX Universal Surface Cleaner.

FOR SMC OR FIBERGLASS:

1. Clean with **Plastic & Leather Prep**, **SEM Solve** or **XXX Universal Surface Cleaner**. Do not saturate exposed fibers.

Note: Use masking tape to mask any exposed fibers prior to cleaning and always use clean, lint-free towels when cleaning surfaces to avoid lint and particle contamination.

2. Sand with P80 grit sandpaper and blow off dust.

FOR GLASS:

- 1. Clean with SEM Solve or XXX Universal Surface Cleaner.
- 2. Sand the surface when possible with P80 P180 grit sandpaper.
- 3. Re-clean with SEM Solve or XXX Universal Surface Cleaner.

FOR CONCRETE OR WOOD:

Note: Surface must be clean, dry and free of any contaminants before applying adhesive. Sanding wood will help with adhesion.

MIXING:

Place cartridge into the **Universal Manual Applicator** or **Universal Pneumatic Applicator**. To remove cap, insert flat head screwdriver into slot and pry upward.

Note: Prior to installing Static Mixer, equalize cartridge by dispensing product until both parts flow equally. Install Static Mixer. Cut tip to desired application size. Hold applicator upright until product is dispensed into mixer. Dispense a test bead to ensure proper mix. For cap replacement, match circles and squares, then snap back into place.

STATIC MIXERS:

Part:	Product Name:	For:	Container:
70011	Integral Nut Square Static Mixers	7 oz. Cartridge	6 Pack
70012	Integral Nut Square Static Mixers	7 oz. Cartridge	50 Pack
70020	1.7 oz Turbo Static Mixers	1.7 oz. Cartridge	6 Pack
70021	1.7 oz Turbo Static Mixers	1.7 oz. Cartridge	50 Pack

APPLICATION:

GENERAL PURPOSE BONDING:

- **1.** Dry fit parts to ensure proper alignment.
- **2.** Prepare surface as outlined in Preparation section.
- 3. For impact strips and side moldings, mask both sides of the surface where adhesive is to be applied.

Note: Do not allow **Dual-Mix™ Quick Set 50** to flow over masked area or onto painted surface.

- 4. Apply Dual-Mix Quick Set 50 to either surface.
- **5.** Quickly bond the two surfaces. Hold or clamp together until set.

FOR TAB REPAIR USING PLASTIC REPAIR CONTOURING TAPE:

- **1.** Prepare surface as outlined in Preparation section.
- **2.** For badly torn damage, drill 1/8" holes approximately 1/2" apart into the repair area. This will help lock the repair material in place.
- **3.** Cut a piece of **Plastic Repair Contouring Tape** twice the length of the repair.
- **4.** Dispense **Dual-Mix Quick Set 50** onto **Plastic Repair Contouring Tape**. Quickly apply both to the repair area and mold into shape using your gloved hands or a spreader.
- **5.** Allow the repair material to cure for 5 minutes before removing the plastic film.
- **6.** Sand with a P80 180 grit disc to desired shape and drill as needed.

Note: WORK QUICKLY! The repair material will set in 50 seconds.

CAUTION:

Dual-Mix Quick Set 50 can get very hot while curing.

STORAGE:

Dual-Mix Quick Set 50 should be stored in a cool, dry place with adequate ventilation away from heat, sparks and flames. The shelf life for **Dual-Mix Quick Set 50** is 1 year when stored under optimal conditions.
